Review your degree audit 2-3 weeks after submitting this form.

¹ The new Economics requirement applies to all students matriculating on or after September 1, 2007 and students who have matriculated before that date but have not earned any credits toward their degree since September 1, 2004. All other students are grandfathered under the previous requirements which permitted students to declare Economics as their major provided they had a cumulative grade point average of 2.0 or higher.
Revised 9/22/08
